

A3.2 Scrum Product Backlog

Product Backlog	
Project's name:	eTopics
Product Owner:	Carlos Ivan Gallardo Dueñas

Epic ID	As (Role)	I Want	To	ID User Story		I want	To	Acceptante criteria	priority	estimate	Depen denci es	Sprint	Estate	comm ents
EPIC01	User	View Topics within the system	To be able to consult, read and comment on topics that have been published	HU01	User	I want to be able to see the most popular topics in the beginning	To find the most relevant topics on the site	You must be able to filter the most relevant topics according to the statistics of the site	Must have	20		2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	Metodo MOSCOW Must have, should have, would have, won't have
				HU02	User	I want to be able to comment on the topics that I read	To be able to express my opinions on a specific topic	Must be able to comment and reply to comments within a topic	should have	13		3	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU03	User	I want to be able to download and/or view multimedia content that is within the topics	To obtain more support tools for understanding the topics	it must have uniform and global formats that can be recognized and downloaded by any user within the site	would have	20		3	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
EPIC02	User	Creation of Topics within the system	So they can be published on the platform.	HU04	User	I want to be able to add a title and a description to the new topic	So that the topic has a structure and this data helps in the search for a topic	At the time of publication of the topic, the title and description must be visible to the user and to other users.	Must have	13		1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU05	User	I want to be able to add files to the new topic	So that the topic has content and can fulfill its function of providing knowledge to other users	The files that are added to the topic must be visible to users who wish to consult the topic.	Must have	40	HU04	1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU06	User	I want to be able to send my topic to the publication queue	So that the administrator can authorize the topic, be able to publish it and make it visible to other users.	At the moment that the user presses "Publish topic" and the administrator can see the topic in the "queue of acceptance topics"	Must have	13	HU05	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
EPIC03	User	Topic search	To be able to find specific topics that interest the user	HU07	User	I want to be able to search by categories my topics	to find topics even if I don't know the titles	When the user can click the "search" button and it allows you to choose a filter by categories and shows you the filtered topics.	Should have	13	HU06	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU08	User	I want you to show me topics similar to the topic I am looking for	To see more options in case of not finding the topic I am looking for	When the user makes a search for a topic and this platform is not found, it should show similar topics.	should have	20	HU06	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU09	User	I want you to show me in an ascending way the most popular topics that I am looking for	To always have the best options in sight	when some topics have already been evaluated and visited by other users and they can see the most popular topics	would have	13	HU06	3	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	

EPIC04	Administrator	Topic validation	So that the topics can be uploaded to the platform.	HU10	Administrator	I want the topics to be published.	So that the topics once published fulfill their function.	They must be able to be viewed and cataloged to make their search easier.	Must have	13		1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU11	Administrator	I want you to send a notification once the topic is published.	So that once the topic has been published, the user knows that their topic was approved.	You should be able to access your topic once the notification has reached you.	Would have	40	HU10	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU12	Administrator	I want the requirements to be met, otherwise the publication of the topic will be denied.	For the topic to be published, the Administrator must approve it.	At the time the topic could not be published, the user will be able to make a correction and upload it again for another inspection by the Administrator.	Would have	13	HU11	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
EPIC05	Administrator	Generation of reports of the topics.	Analyze the performance and results of the published content.	HU13	Administrator	Generate reports by criteria of topic, content, target audience, among other filters.	Process information according to needs and context.	The system must display a series of filters to choose from for the report, from all the selected topics, keywords, sector, and ordering.	Must have	40		1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU14	Administrator	Save the generation of reports in the list, according to the request date.	Take as a reference in case you need the information later.	A report history section should appear, listed from the most recent to the oldest.	Would have	20	HU13	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU15	Administrator	Download the reports locally.	Access reports more quickly and safely.	The option to download directly to the hard drive should appear in the preview of each report.	Would have	13	HU13	2	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
EPIC06	User	To be able to access the platform through a login	To have access to the platform's functionalities	HU16	Admin	I want the user to be registered in the company	To be able to assign an IDUser and a password to enter the system	When the user can use their credentials on the platform.	Must have	8		1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU17	Admin	I want to be able to assign a User ID and password without having to fill out a complex data form.	So that the user can enter the system and make use of it.	When the user has a User Id and a password assigned	Must have	20	HU16	1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done	
				HU18	User	I want to be able to access the platform through a User ID and password	To make use of the system's functionalities.	When the user can access the system with a User ID and password without problem	Must have	13	HU17	1	<input checked="" type="checkbox"/> To Do <input type="checkbox"/> Doing <input type="checkbox"/> Done
